

Specification.

All the pipes and specials to be of uniform bore and uniform thickness throughout, without any belts and of the full specified diameter and to be perfectly free from sand, air holes, and defects of any kind.

2. The thickness and weight of the pipes and specials to be as per standard trade practice, suitable for a working head of 100 feet the least thickness for the pipes to be $\frac{3}{8}$ inch.

3. Each pipe should have its weight distinctly marked in a prominent place after being dipped in Dr. Angus Smith's solution.

4. The flanges should be true and faced; the bolt holes should be drilled symmetrically and they must register exactly if two flanges be brought face to face.

5. A margin in weight of not more than 4 per cent will be accepted.

6. All pipes to be in strict accordance with the specification noted above.

Cast Iron Pipes and Specials for Improving Water-supply to Chintamani Town.

No.	Particulars	Probable quantity required
<i>Pipes.</i>		
	<i>Inches</i>	
1	5 Cast Iron Flanged pipes, each 9 feet long	22
2	9 do do do do	1
3	9 do flanged pipes for lengthening, each 3' long	2
4	4 do flanged pipes each 9' long	17

16	5 Sluice valves with flanged ends	13
17	5 Stop valves with spigot and socket ends	2
18	5 Cast Iron Rose pieces (Strainers) with flanged ends	8
19	Cowls to fit with 4" Cast Iron flanged pipes	10
20	6 Cast Iron special elbows with the straight part 2 feet long ending with a bell mouth and the elbow bend to be 1 foot long and ending plainly.	4
21	5 Spare flanges faced and drilled inside complete with bolt holes	30
22	9 Cast Iron flanged duckfoot bend	1
23	9 X 5" X 5" Flanged Tee	1
24	5 Cast Iron Flanged lengthening pieces 3 feet long each	2
25	9 Cast Iron Flanged bell mouth	1
26	5 Cast Iron Spigot socket Bell mouth	3
27	Cast Iron Collars for 5" Spigot and socket pipe	10
28	Plugs to fit into 5" sockets	3

P. GOPALA IYENGAR,
For Executive Engineer.

WATER-SUPPLY DIVISION.

Notification dated 10th January 1921.

1. Notice is hereby given that separate sealed tenders will be received by the undersigned up to the noon of the 10th January 1921, for the supply of articles as noted in a separate statement required for use of this division for the period 1st January 1921 to 30th June 1921.

2. An approximate estimate of quantities required is given against each item under each group in the list, but these quantities are not guaranteed. Any quantity 20 per cent more than the tendered articles shall be supplied at the tendered rates at any date between 1st January 1921 and 30th June 1921.

3. Parties are at liberty to tender for one or as many whole groups as they desire, but there should be a separate tender for each group, but competitors are not allowed either to split up the groups or tender for portions of groups or include more than one group in a tender.

4. Each tender should indicate the group number to which it relates in the list.

5. The tender for each group should be accompanied either in cash or currency notes by a deposit of earnest money fixed for that group as noted in para 6 and should be submitted in a cover sealed and superscribed "Tender for the supply of materials Group No. for the use of the Water-Supply Division for the period from 1st January 1921 to 30th June 1921." Rates should be tendered for the same unit as called for: i.e., when rate for pipe is required per R.ft., rate per Cwt. (weight) should not be given when rate for "Coal Tar" per lb is required rate for keg; should not be given if rate for wood screws is required per gross, rate per lb and *vice versa* should not be tendered. No tender failing to fulfil any of the above conditions will receive attention.

6. The earnest money required for the several groups of articles in the list are:—

Group No.	Description	Rs.
1.	Belting and fasteners	50
Do	2. Hides and skins	50
Do	3. Metals	25
Do	4. Paints and painters' stores	25
Do	5. Lubricants	50
Do	6. Small stores	25
Do	7. Pipes and fittings	25
Do	8. Miscellaneous	50
Do	9. Tools	50
Do	10. Sundries	25

7. The final acceptance of the tender will rest with the Superintending Engineer, Sanitary Circle, who does not bind himself to accept the lowest or any tender or assign any reason whatever for the rejection of any tender.

8. The names of the successful competitors will be published on the notice board in the Executive Engineer's Office in usual course on receipt of orders accepting tenders. The group or groups for which a party's tender or tenders have been accepted will also be noted against his name on the notice board. No enquiries of whatever nature regarding the tenders will receive any reply.

9. The successful competitor or competitors will be required within eight days of the acceptance of his tender or tenders to execute a contract bond for the group or groups allotted to him, in default of which his tender or tenders will be considered cancelled and his earnest money will be forfeited.

10. On acceptance of the tenders, the earnest moneys on rejected tender or tenders will be returned to the parties concerned. The earnest moneys for the tender or tenders of the successful competitor or competitors will be returned to those concerned only when the supply is made satisfactorily throughout the entire period for which the contract is to run.

11. The successful competitor shall guarantee to maintain at Bangalore at stock 50 per cent of the materials enumerated in the group or groups allotted to him in the list and shall comply with all indents made on him within three days of the order sent to him and follow the same procedure throughout up to 30th June 1921. Any further delay than 3 days will entail a penalty of Rs. 2 per day until the supply is made satisfactorily. Such penalty will strictly be enforced without any notice to the effect.

12. The rate tendered and accepted for each item shall include cost of delivery at the "Stores" attached to the Water-Supply Division at Bangalore and shall be binding on the supplier for the period from 1st January to 30th June 1921, irrespective of all fluctuations in the market during the period.

13. Materials supplied by the party but found not to be up to standard in quality or in any respect will be rejected and the supplier shall remove and replace the same with fresh articles then and there at his own cost.

14. Should the successful competitor fail to supply the required articles or replace the rejected ones in time, the Executive Engineer will make other arrangements to procure them at the risk of the party should there be loss to Government but with no benefit to him should there be profit due to difference of rates as tendered and approved and as purchased.

15. Weights, etc., of materials supplied, as sealed by the Chief Store-keeper on suppliers' invoices will be accepted as final and no representation by the supplier of his weights, etc., being correct will be considered and supplies made to the "Stores" unaccompanied by invoices will not receive attention and will be there at the suppliers' risk.

16. The supplier is bound to supply any of the materials direct to any pumping station outside Bangalore, when so advised by the undersigned, in which case *bona fide* packing charges, conveyance charges including railway freight from Bangalore up to the Pumping Station will be allowed to him. In all such cases the supplier is bound to send the articles always *Freight paid* and post the railway receipt to the consignee forthwith to avoid warpage and Demurrage charges.

Invoices should accompany the articles.

Bills should be sent to this office and not to the consignee direct.
